

ROLLS-ROYCE SILVER SPUR
WITH DIVISION

ROLLS-ROYCE SILVER SPUR WITH DIVISION

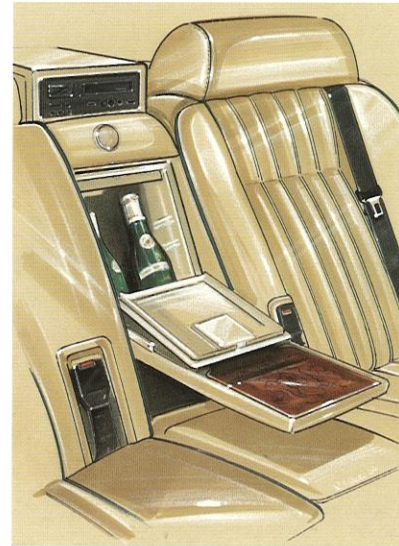

The Rolls-Royce Silver Spur with Division has a wheelbase 14 inches longer than the Silver Spur. This allows for a spacious, private rear passenger compartment with an electrically operated glass division, and incorporates independent air conditioning and in-car entertainment.

The increased rear compartment space allows the customer greater flexibility to tailor their Rolls-Royce to suit their individual needs, whether it be a personal colour scheme or an entire new design for the interior.

COMMISSION YOUR ORIGINAL.

At Rolls-Royce we believe commissioning a beautiful object is an enjoyable and rewarding experience. Your commission will be brought to life through the insight and skill of the engineers and craftsmen at Crewe, and the extraordinary special commission capabilities of Park Ward.

From commissioning that may create a business or entertaining environment through to the realisation of a personal vision, Park Ward craftsmen strive to create for that most valuable of assets: a special commission.

Alternatively, customers can choose from a range of available features and themed choices, some of which are mentioned overleaf.

We will be pleased to help you take the first step towards commissioning your Rolls-Royce motor car; we invite you to savour the experience.

Production and chassis numbers

Identification of the model in the chassis number

- The chassis number of a Silver Spur Non-Division has:
- the letter A on the third position
 - the letter Y on the fifth position
 - a number between 80501 and 80541.
- The following models have the same identification (letters A and Y):
- Silver Spur Non-Division.
 - Silver Spur Armoured.

Further details about the production and the chassis numbers

- The chassis numbers in the years 1990 up to and including 2003 are assigned in separate series per model type (often per model year as well) or in separate series per model. A model type stands for e.g. the standard saloon models (Silver Spirit, Brooklands), the long wheelbase models (Silver Spur, Bentley LWB), the 2-door coupé models (Continental R, Continental T, et cetera).
- This model has a series of numbers that was not shared with other models. Three of these cars were designed as a Bentley. These cars are the Bentley Brooklands LWB Division with the numbers 80505 and 80519 and the Bentley Brooklands R Division with number 80536.

Numbers LHD / RHD

Model year	Left-hand drive		Right-hand drive		Total
	Number	% (p vr)	Number	% (p vr)	
1997	8	47%	9	53%	17
1998	8	42%	11	58%	19
1999	2	100%	0	0%	2
Total	18	47%	20	53%	38
